1. Introduction

Group A-8 consists of four members. The tasks were divided between these four members. Task of student 1 was assigned to Menura Kodithuwakku. Task of student 2 was assigned to Sheran Buckman. Task 3 was assigned to me Yasiru Jayatissa. At last, the task of student 4 was assigned to Tharusha Amarasooriya.

The main topic chosen by group A-6 is sports and it was decided to develop our website about only one sport and the world most famous sport “Football” was chosen.

2. Technical Discussion

Quiz Form

I was assigned with designing the quiz form which uses JavaScript, CSS, and HTML. Firstly, I started with designing the main quiz page where the user can see the quiz instruction and select the difficulty level.

I started developing the page with making a basic form with HTML which takes player's name and the difficulty level of the game. I styled this page using CSS to enhance the user-experience. In here I used an onclick function to validate the user inputs and to show the quiz according to the difficulty level that has been chosen. Coding with JavaScript was the challenge here for me, but I was able to overcome them with the help of recorded lectures and YouTube tutorials.

```
<div class = "startform">
    <div class= "heading">
        <h2>Quiz Form</h2>
    </div>
    <form id = "quizform" name="form2">
        <div class="qform">
            <label for ="username"> Name : </label>
            <input type = "text" name = "name" id="username" maxlength= "20" placeholder="Enter Your Name Here">
        </div>
        <div class="qformy">
            <input type="radio" name = "level" id="easy" value="easypage">
            <label for="easy"> Easy </label>
        </div>
        <div class="qformy">
            <input type="radio" name = "level" id="medium" value="mediumpage">
            <label for="medium"> Medium </label>
        </div>
        <div class="qformy">
            <input type="radio" name = "level" id="hard" value="hardpage">
            <label for="hard"> Hard </label>
        </div>
        <button type="submit" id="start" onclick="start_game()"> Start! </button>
    </form>
</div>
```

And then I designed the Instruction form for the players in a div element using an unordered list with disk type none.

```

<div class="quizinfo">
    <div class="heading2">
        <h2> Quiz Instruction </h2>
    </div>
    <ul>

        <li>You Have <b>2 Minutes</b> To Complete The <b>Easy</b> Quiz </li>
        <li>You Have <b>3 Minutes</b> To Complete The <b>Medium</b> Quiz </li>
        <li>You Have <b>5 Minutes</b> To Complete The <b>Hard Quiz</b> </li>
        <li>Each Correct Answer You Provide Is Rewarded With <b>2 Marks</b></li>
        <li>Each Wrong Answer You Provide Is Rewarded With <b>-1 Mark</b></li>
        <li>Final Result Will Get Displayed At <b>The End Of The Quiz</b></li>
    </ul>
</div>

```

In here I used an onclick function (when user clicks on “start”, the function will run and validate user inputs) to validate the user inputs and to show the quiz according to the difficulty level that has been chosen. Coding with JavaScript was the challenge here for me, but I was able to overcome them with the help of recorded lectures and YouTube tutorials.

```

/* The function that will find out what level is chosen */

function start_game()
{
    var name = document.getElementById("username").value;
    var level = document.form2.level.value;
    if(name == "")
    {
        alert("Name Field is Empty ! ");
    }
    if (level == "")
    {
        alert("Level is Not Selected ! ");
    }
    else
    {
        var con =confirm("LETS PLAY ! ") //if all satisfied a confirm box to load the quiz
        if (con==true)
        {
            select_level();
        }
    }
}

```

After the validation ends if all the user inputs are correct a function called as “select_level ()” will run and according to the level checked by user, the relevant quiz page will get opened in a new tab.

```
/* Level Selector */
function select_level()
{
    var level = document.form2.level.value;
    if (level == "easypage")
    {
        window.open('https://w1809743.users.ecs.westminster.ac.uk/easyq.html');
    }
    else if (level == "mediumpage")
    {
        window.open('https://w1809743.users.ecs.westminster.ac.uk/mediumq.html');
    }
    else
    {
        window.open('https://w1809743.users.ecs.westminster.ac.uk/hardq.html');
    }
}
```

Page Editor Navigator + Footer

At the bottom of each page is a footer which gives basic information like phone number and address and in the bottom left corner is a image which will lead the users to the editor's page.

```
<footer class = 'footer'>
    <h2>For more Information</h2>
    <table>
        <tr>
            <td>Contact No</td>
            <td>:071205789</td>
        </tr>
        <tr>
            <td> Email- Add</td>
            <td>:DailyFootball@gmail.com</td>
        </tr>
        <tr>
            <td>Office-Add</td>
            <td>:10/3 Greenlandslane, Colombo05</td>
        </tr>
    </table>
    <a href = 'https://w1809743.users.ecs.westminster.ac.uk/yasiruprofile.html'><img src = 'tst16.png' alt = 'PageEditor' id = "pgEidt" >
        <br>
        <p id = 'pEditor'>Page Editor</p>
    </a>
    <a href = '#top'><img src = 'tst12.png' alt = 'backToTop' id = 'backToTop'></a>
</footer>
```

Easy/Medium/Hard Quiz

When the player selects on the easy level the easy quiz page gets loaded. There I have included 10 simple questions about football, which users should answer within 2 minutes (A countdown timer displayed) In here I have entered three levels which is not in the required functionality. The reason for entering that is to increase the user friendliness in this website. After the player finishes, pressing on the “Done!” button will result in displaying the correct/wrong answers and the score based on their inputs. In here I used the display property in JavaScript to hide/show the result showing block when needed and to hide/show the quiz question block when needed.

```
/* Easy Level Answer Checker */

function checkanswereeasy(){
    clearTimeout(timely);
    var seconds = (minutes * 60) - secondsleft;
    var minutess = 1-(minute - minutes);
    var marks = 0;
    var question1=document.form3.q1.value;
    var question2=document.form3.q2.value;
    var question3=document.form3.q3.value;
    var question4=document.form3.q4.value;
    var question5=document.form3.q5.value;
    var question6=document.form3.q6.value;
    var question7=document.form3.q7.value;
    var question8=document.form3.q8.value;
    var question9=document.form3.q9.value;
    var question10=document.form3.q10.value;
    var q1result=document.getElementById('ques1');
    var q2result=document.getElementById('ques2');
    var q3result=document.getElementById('ques3');
    var q4result=document.getElementById('ques4');
    var q5result=document.getElementById('ques5');
    var q6result=document.getElementById('ques6');
    var q7result=document.getElementById('ques7');
    var q8result=document.getElementById('ques8');
    var q9result=document.getElementById('ques9');
    var q10result=document.getElementById('ques10');
    var heading=document.getElementsByClassName('begin');
    var result=document.getElementById('res');
    var quizform=document.getElementsByClassName('form');
    var info=document.getElementsByClassName('resultinfo');
    var resultshow=document.getElementsByClassName('resultblock');
}
if (question1 == "q13")
{
    marks+=2;
    q1result.textContent='The Answer For Question No.1 : Brazil';
    q1result.style.backgroundColor="green";
}
```

```
else{
    marks--;
    q1result.textContent='The Answer For Question No.1 : Brazil'
}
if (question2 == "q21")
{
    marks+2;
    q2result.textContent='The Answer For Question No.2 : Miroslave Klose'
    q2result.style.backgroundColor="green";
}
else{
    marks--;
    q2result.textContent='The Answer For Question No.2 : Miroslave Klose'
}
if (question3 == "q33")
{
    marks+2;
    q3result.textContent='The Answer For Question No.3 : Episkyros'
    q3result.style.backgroundColor="green";
}
else{
    marks--;
    q3result.textContent='The Answer For Question No.3 : Episkyros'
}
if (question4 == "q41")
{
    marks+2;
    q4result.textContent='The Answer For Question No.4 : 1930'
    q4result.style.backgroundColor="green";
}
else{
    marks--;
    q4result.textContent='The Answer For Question No.4 : 1930'
}
if (question5 == "q53")
{
    marks+2;
    q5result.textContent='The Answer For Question No.5 : Tottenham Hotspur'
    q5result.style.backgroundColor="green";
}
else{
    marks--;
    q5result.textContent='The Answer For Question No.5 : Tottenham Hotspur'
}
if (question6 == "q63")
{
    marks+2;
    q6result.textContent='The Answer For Question No.6 : Uruguay'
    q6result.style.backgroundColor="green";
}
else{
    marks--;
    q6result.textContent='The Answer For Question No.6 : Uruguay'
}
if (question7 == "q71")
{
    marks+2;
    q7result.textContent='The Answer For Question No.7 : Uruguay'
    q7result.style.backgroundColor="green";
}
```

```
else{
    marks--;
    q7result.textContent='The Answer For Question No.7 : Uruguay'
}
if (question8 == "q83")
{
    marks+2;
    q8result.textContent='The Answer For Question No.8 : 1872'
    q8result.style.backgroundColor="green";
}
else{
    marks--;
    q8result.textContent='The Answer For Question No.8 : 1872'
}
if (question9 == "q93")
{
    marks+2;
    q9result.textContent='The Answer For Question No.9 : Lucien Laurent'
    q9result.style.backgroundColor="green";
}
else{
    marks--;
    q9result.textContent='The Answer For Question No.9 : Lucien Laurent'
}
if (question10 == "q103")
{
    marks+2;
    q10result.textContent='The Answer For Question No.10 : Bert Patenaude'
    q10result.style.backgroundColor="green";
}
else{
    marks--;
    q10result.textContent='The Answer For Question No.10 : Bert Patenaude'
}

quizform[0].style.display="none";
heading[0].style.display="none";
info[0].style.display="block";
resultshow[0].style.display="block";

if (marks < 0)
{
    marks = 0;
    result.innerHTML='Your Score Is <br>' + marks + ' /20 <br> You Have Completed The Quiz
In<br>' + (1 - Math.floor(minutes)) + ' <b>minutes </b>' + (59 - Math.floor(secondsleft)) +
' <b>seconds</b>';
}
else
{
    result.innerHTML='Your Score Is <br>' + marks + ' /20 <br> You Have Completed The Quiz
In<br>' + (1 - Math.floor(minutes)) + ' <b>minutes </b>' + (59 - Math.floor(secondsleft)) +
' <b>seconds</b>';

    if (marks == 0)
    {
        resultshow[0].style.backgroundColor = "lightcoral";
    }
    else if (marks > 0 && marks < 10){
        resultshow[0].style.backgroundColor = "orange";
    }
    else{
        resultshow[0].style.backgroundColor = "lightcyan";
    }
}
```

I used the same JavaScript formatted file also for the medium and hard levels. The challenging part was using display property and using nodelists to access the display block and other properties. The tutorials from YouTube and w3schools site helped me overcome this problem. At the end of the results page a button called “Play Again” will get displayed and it will redirect the users back to the main Quiz Form.

```
/* Play Again */

function again(){
    var y = confirm("Do You want to Play Again ? ");
    if (y == true)
    {
        window.open('https://w1809743.users.ecs.westminster.ac.uk/quiz.html','_self')
    }
}
```

A countdown timer is displayed each time the user starts the quiz, and it was designed using JavaScript and the styling for that timer was designed using CSS. The challenging part was to freeze the timer when user clicks on the “Done!” button. The information in lecture 9 slides helped me overcome this problem. Three Different timers were developed for each difficulty level.

```
var timely;
/* Easy Timer */
var total_seconds = 60 * 2;
var minute = total_seconds / 60;
var minutes = parseInt(total_seconds / 60);
var secondsleft = parseInt(total_seconds % 60);

function checktimeeasy(){
    var time=document.getElementById('easytimer');
    time.innerHTML= 'Time Left:<br> ' + minutes + ' min<br> ' + secondsleft + ' <br>seconds ';
    time.style.display="block";
    if(total_seconds <= 0)
    {
        alert('Your Time is up!')
        time.style.display="none";
        autosubmitcheckanswerveeasy();
    }
    else
    {
        total_seconds = total_seconds -1 ;
        minutes = parseInt(total_seconds / 60);
        secondsleft = parseInt(total_seconds % 60);
        timely = setTimeout("checktimeeasy()", 1000);
    }
}
```

In here, if the user could not submit the quiz on time an alert will get shown as “time is up!” and will run the function “autosubmitanswers” which will check the answered questions and display the score.

```
/* Auto Submit Easy Level Answer Checker */

function autosubmitcheckanswereeasy(){
    var marks = 0;
    var question1=document.form3.q1.value;
    var question2=document.form3.q2.value;
    var question3=document.form3.q3.value;
    var question4=document.form3.q4.value;
    var question5=document.form3.q5.value;
    var question6=document.form3.q6.value;
    var question7=document.form3.q7.value;
    var question8=document.form3.q8.value;
    var question9=document.form3.q9.value;
    var question10=document.form3.q10.value;
    var q1result=document.getElementById('ques1');
    var q2result=document.getElementById('ques2');
    var q3result=document.getElementById('ques3');
    var q4result=document.getElementById('ques4');
    var q5result=document.getElementById('ques5');
    var q6result=document.getElementById('ques6');
    var q7result=document.getElementById('ques7');
    var q8result=document.getElementById('ques8');
    var q9result=document.getElementById('ques9');
    var q10result=document.getElementById('ques10');
    var heading=document.getElementsByName('begin');
    var result=document.getElementById('res');
    var quizform=document.getElementsByName('form');
    var info=document.getElementsByName('resultinfo');
    var resultshow=document.getElementsByName('resultblock');
    if (question1 == "q13")
    {
        marks+=2;
        q1result.textContent='The Answer For Question No.1 : Brazil'
        q1result.style.backgroundColor="green";
    }
    else{
        marks--;
        q1result.textContent='The Answer For Question No.1 : Brazil'
    }
    if (question2 == "q21")
    {
        marks+=2;
        q2result.textContent='The Answer For Question No.2 : Miroslave Klose'
        q2result.style.backgroundColor="green";
    }
    else{
        marks--;
        q2result.textContent='The Answer For Question No.2 : Miroslave Klose'
    }
}
```

```
if (question3 == "q33")
{
    marks+2;
    q3result.textContent='The Answer For Question No.3 : Episkyros'
    q3result.style.backgroundColor="green";
}
else{
    marks--;
    q3result.textContent='The Answer For Question No.3 : Episkyros'

}
if (question4 == "q41")
{
    marks+2;
    q4result.textContent='The Answer For Question No.4 : 1930'
    q4result.style.backgroundColor="green";
}
else{
    marks--;
    q4result.textContent='The Answer For Question No.4 : 1930'
}
if (question5 == "q53")
{
    marks+2;
    q5result.textContent='The Answer For Question No.5 : Tottenham Hotspur'
    q5result.style.backgroundColor="green";
}
else{
    marks--;
    q5result.textContent='The Answer For Question No.5 : Tottenham Hotspur'
}
if (question6 == "q63")
{
    marks+2;
    q6result.textContent='The Answer For Question No.6 : Uruguay'
    q6result.style.backgroundColor="green";
}
else{
    marks--;
    q6result.textContent='The Answer For Question No.6 : Uruguay'
}
if (question7 == "q71")
{
    marks+2;
    q7result.textContent='The Answer For Question No.7 : Uruguay'
    q7result.style.backgroundColor="green";
}
else{
    marks--;
    q7result.textContent='The Answer For Question No.7 : Uruguay'
}
if (question8 == "q83")
{
    marks+2;
    q8result.textContent='The Answer For Question No.8 : 1872'
    q8result.style.backgroundColor="green";
}
```

```
else{
    marks--;
    q8result.textContent='The Answer For Question No.8 : 1872'
}
if (question9 == "q93")
{
    marks+2;
    q9result.textContent='The Answer For Question No.9 : Lucien Laurent'
    q9result.style.backgroundColor="green";
}
else{
    marks--;
    q9result.textContent='The Answer For Question No.9 : Lucien Laurent'
}
if (question10 == "q103")
{
    marks+2;
    q10result.textContent='The Answer For Question No.10 : Bert Patenaude'
    q10result.style.backgroundColor="green";
}
else{
    marks--;
    q10result.textContent='The Answer For Question No.10 : Bert Patenaude'
}

quizform[0].style.display="none";
heading[0].style.display="none";
info[0].style.display="block";
resultshow[0].style.display="block";

if (marks < 0)
{
    marks = 0;
    result.innerHTML='Your Score Is <br>' + marks + ' /20 <br> You Have Completed The Quiz In<br> ' + minute +
' <b>minutes </b>' + secondsleft + ' <b>seconds</b>';
}
else
{
    result.innerHTML='Your Score Is <br>' + marks + ' /20 <br> You Have Completed The Quiz In<br> ' + minute +
' <b>minutes </b>' + secondsleft + ' <b>seconds</b>';
}

if (marks == 0)
{
    resultshow[0].style.backgroundColor = "lightcoral";
}
else if (marks > 0 && marks < 10){
    resultshow[0].style.backgroundColor = "orange";
}
else{
    resultshow[0].style.backgroundColor = "lightcyan";
}
```

In each difficulty level, the same functionality happens.

Student Details

The second task I was assigned to was to design the student details page. In here I had to use only CSS and HTML as this is not much of a complex webpage which interacts with user inputs. The required functionality given here was to show four pictures of the team members and show their details in an area in the page when hovering over the pictures.

Showing pictures of the team members:

```
<div class="developers">
    <h1>Developers</h1>
    <div class="profile3">
        
        <div class="pro3">
            <p>Menura Kodithuwakku</p>
            <p>Student 1</p>
        </div>
    </div>
    <div class="profile2">
        
        <div class="pro2">
            <p>Sheran Buckman</p>
            <p>Student 2</p>
        </div>
    </div>
    <div class="profile4">
        <a href="yasiruprofile.html"></a>
        <div class="pro4">
            <p>Yasiru Jayatissa</p>
            <p>Student 3</p>
        </div>
    </div>
    <div class="profile1">
        
        <div class="pro1">
            <p>Tharusha Amarasooriya</p>
            <p>Student 4</p>
        </div>
    </div>
</div>
```

Using CSS to style the pictures so that student details will get displayed when hovering over them.

```
/* Developers */  
  
.developers{  
    margin-top: 5%;  
}  
.developers h1{  
    margin-left: 44%;  
    font-size: 30px;  
    font-family: "Sofia", sans-serif;  
    margin-bottom: 20px;  
}  
#tharusha, #sheran, #menura, #yasiru{  
    margin-top: 3%;  
    width: 250px;  
    height: 250px;  
    border: 2px solid black;  
    border-radius: 50%;  
    margin-bottom: 10px;  
}  
.profile1 , .profile2 , .profile3, .profile4 {  
    float: left;  
    margin-left: 5%;  
}  
.pro1, .pro2 , .pro3 , .pro4 {  
    width: 250x;  
    font-size: 20px;  
    font-family: "Trirong", serif;  
    background-color: lavender;  
    text-align: center;  
    visibility: hidden;  
}  
.profile1:hover .pro1{  
    visibility: visible;  
}  
.profile2:hover .pro2{  
    visibility: visible;  
}  
.profile3:hover .pro3{  
    visibility: visible;  
}  
.profile4:hover .pro4{  
    visibility: visible;  
}
```

In here I added some new features to make this website look like an actual website and to give users a good experience.

Editor Page

According to the required functionality given I used HTML and CSS when developing the editor page. Using div elements and changing the position to centre using CSS was a challenging task for me. The lecture about CSS positioning helped me to resolve this issue.

The editor page looks as follows.

```
<!DOCTYPE html>
<html lang="en">
<head>
    <title>Editor's page</title>
    <link rel="stylesheet" href="profilestyle.css">
</head>
<body>
    <div class="userpro">
        <div class="pic">
            <h2>Yasiru Jayatissa</h2>
            <figure>
                
                <figcaption>
                    Student & Developer
                </figcaption>

Appendix C: Individual Statement

Student Name:	D. Yasiru Jayatissa	Student Id:	2019103
State what tasks you carried out in the project.			
Quiz Program			
Student Details Page			
State what you enjoyed and did not enjoy about teamwork.			
Working with friends to develop a website was fun but also challenging at the same time Sharing Codes with each other and developing together is what I did not enjoy			
State what you learnt about teamwork.			
You need to have patience if you are working in a team to achieve the same goals			
State what skills you gained/learnt from undertaking the project.			
Empathy and Unity			
State any strengths about yourself that emerged whilst undertaking the project.			
Leadership Skills			
State any weaknesses about yourself that emerged whilst undertaking the project.			
Having Lack of Patience			
State how you would do things better if you were to undertake the project again.			
I would be more patient with team members			
Additional general or project specific comments:
